## CHUNK 42: INTERNAL CHOICE RULES

```yaml

chunk_id: ENG10_INTERNAL_CHOICE_RULES

chunk_type: examination_note

section: Blueprint Notes

```

### Internal Choice Rules

The source marks some questions with an asterisk to indicate options or internal choice.

Internal choice is shown for:

- Poetry: Evaluative
- Data Analysis: four-mark analytical question

- Notice Writing
- Report Writing
- Grammar: five-mark task
- Letter Writing
- Essay Writing

Question-specific instructions should take priority when they are more detailed than the general blueprint.

## CHUNK 43: BLUEPRINT NOTATION RULES

```
```yaml
chunk_id: ENG10_BLUEPRINT_NOTATION_RULES
chunk_type: examination_note
section: Blueprint Notes
```
```

### **Blueprint Notation Rules**

- An asterisk indicates that options or internal choice are available.
- The digit outside brackets indicates allotted marks.
- The digit inside brackets indicates the number of questions.
- A notation such as 1(5) may mean five questions carrying one mark each.
- The notation must be interpreted with the question-type and total-marks columns.

## CHUNK 47: INGESTION GUIDELINES

```
```yaml
chunk_id: ENG10_INGESTION_GUIDELINES
chunk_type: technical_guidance
section: Ingestion Recommendations
...
```

Ingestion Guidelines

1. Store each chunk independently.
2. Preserve this hierarchy:

```
```text
```

Board

→ Class

→ Subject

→ Curriculum Part

→ Unit

→ Theme

→ Text or Topic

→ Assessment Type

→ Question Number

→ Marking Scheme

...

3. Keep the following as separate chunk types:

- curriculum overview
- textbook unit
- grammar topic
- writing topic
- educational objective
- examination blueprint
- question-paper structure
- marking scheme
- project section
- source-quality note

4. Add question number, marks, word limit and marking scheme as metadata.

5. Store textbook title, theme and genre as metadata.

6. Do not merge all textbook units into one embedding chunk.

7. Do not merge project work with the theory blueprint.

8. Remove repeated page headers and footers from embedding text.

9. Store source reference and page number in metadata.

10. Normalize typographical errors:

- TEXTT BOOK → TEXTBOOK
- Weight age → Weightage
- Time:03Hours → Time: 3 Hours
- Passage(Unseen) → Unseen Passage
- Letter(Formal and Informal) → Letter Writing: Formal and Informal
- Ibn Batutta → Ibn Battuta, subject to official-source verification

11. Preserve uncertain source text in a source note rather than silently overwriting it.

12. Recommended chunk size:

- preferred: 150–450 tokens
- maximum: approximately 650 tokens
- overlap: 30–50 tokens only for connected explanatory sections

13. Do not add overlap between independent question structures.

14. Embed cleaned natural-language text.

15. Store YAML or JSON metadata separately from the text embedding.

16. Create aliases for retrieval.

Examples:

```
```json
{
  "topic": "Summarization",
  "aliases": ["Summary Writing", "Summarizing", "Precis Writing"]
}
```
```

```
```json
{
  "topic": "Narration",
  "aliases": ["Reported Speech", "Direct and Indirect Speech"]
}
```
```

## CHUNK 48: SOURCE VALIDATION NOTES

```
```yaml
chunk_id: ENG10_SOURCE_VALIDATION_NOTES
chunk_type: data_quality_note
section: OCR and Source Validation
```

Source Validation Notes

The supplied source contains OCR and table-alignment issues.

Important validation points:

1. The line for Prose contains an extra number due to table misalignment. The blueprint confirms that Prose carries 10 marks.
2. Part I totals 19 marks and 55 periods.
3. Part III totals 41 marks and 105 periods.
4. The title "About Me" appears under both Unit 4 and Unit 5. This may be correct or may be a transcription error. Verify it against the official textbook.
5. "Adventure of Ibn Batutta" has been normalized to "Adventure of Ibn Battuta," but the official title should be verified.
6. Question 12 states that any two questions are to be attempted out of three while assigning a total of 4 marks. This instruction appears ambiguous and should be checked against the original official question-paper format.
7. Grammar Question 13 is labelled as a long-answer question but consists of five one-mark items attempted from seven. Store both the official label and the operational question pattern.
8. The project source lists "Record of Annual Activities/Assessment/Practice" and then states that one project is compulsory from each section. The marks are explicitly distributed across three project sections, oral examination and written examination.
9. Do not invent project topics, oral rubrics or written-test rubrics not present in the source.

CHUNK 49: FINAL CURRICULUM SUMMARY

```yaml
